

Product Retirement Notification

Synrad FH Flyer Retirement

Novanta is retiring the Synrad FH Flyer two axis-scan head. **Final orders were due on 1 May 2025.** Novanta will continue to service and support the hardware for FH Flyer scan heads for 7 years after the retirement date, or until 1 May 2032. Please note that no further updates to firmware or software will be released.

Figure 1. Retirement timeline for FH Flyer.

Existing FH Flyer customers are encouraged to consider upgrading to the Versia scan head, which can be purchased individually, or with a Synrad laser in an Integrator Package. Training and upgrade support are available as well.

Figure 2. Versia ti100 Integrator Package.

Please contact your local Novanta Account Manager if you have any questions about the FH Flyer retirement or about the Versia Integrator Package.
